Protect yourself from power bill shock with these Top Tips:

## Use energy hungry appliances during the day

Use your washing machines, dryers, dishwashers, irons and vaccums when the sun is shining.

## Be energy smart

- Turn off lights when leaving a room
- Turn appliances off at the wall
- Minimise dryer use
- Choose fans over air-con
- Wash clothes in cold water
- Leave plenty of space around your fridge
- Cover pots and pans to reduce cooking time
- Keep showers under 4 minutes

## Pre-set air conditioning for the afternoon

Ceiling fans and the thermostat will efficiently keep things cool in summer and warm in winter once the sun goes down.
